MONUMENTAL CALLAO

Under the initiative of the socio-cultural patronage Fugaz/Arte de Convivir, Monumental Callao arises; a space that was trapped among places that spoke about a past glory and that is starting to awaken strongly, for example: the Real Felipe Fortress, Plaza Grau, Plaza Matriz, Plaza Galvez and the port itself. Callao Historical Center is connected by old narrow streets which, with its streetlamps, they tell us about a bohemian past. The old Ronald Building and the neighboring houses are perhaps one of the most architecturally valuable sites of Republican Peru. This initiative invites us to walk these streets through art, music, gastronomy, history, graffiti and local culture.
